

iScanner

Full-featured document scanner for iPhone and Android

58 millions
App downloads

One-Stop solution for all scanning needs of users

Documents

Turning any document into
a perfect scan

ID-card and Passport

Digitizing any type of
personal documents

Contracts & Receipts

Scanning and sharing of
documents with partners or
clients

QR-code reader

Detect URLs, contacts,
locations, hotspots etc.

Area

Measuring and calculating
the area of any facilities

Math

Scanning and solving of
Math problems and
equations

Text recognition (OCR)

Easily extract text from a scanned page, edit it, and save as a new document. This precise OCR text scanner recognizes all popular languages and can even detect multiple languages within one document.

Multipage scanning

Ultra-fast scanning of any number of pages into one document.

Handy document editor

Save scans in black and white or full color. Use a smart image editor with color correction and noise removing features. Cut, copy, paste, re-order, or delete document pages. Edit documents online or offline.

Electronic signature

E-sign contracts, bills, and invoices. Sign documents and email them to your partner or client.

Smart Organizing

Manage documents on your phone. Share docs via emails or messengers right from the app. Multifunctional file manager, folders, drag&drop, iCloud backup, and more.

Security

iScanner app do very carefully with information security

- All docs are stored on the user's phone without using third party cloud storage
- PIN protection of the entire iScanner app or lock of particular folders and documents in the application.
- Full compliance with security protocols of [BBB](#).

AI & Computer Vision

Recognition is based on a self-learning neural network, which helps precisely detect all the borders in the doc being scanned and crop it without quality loss.

Video stream analysis

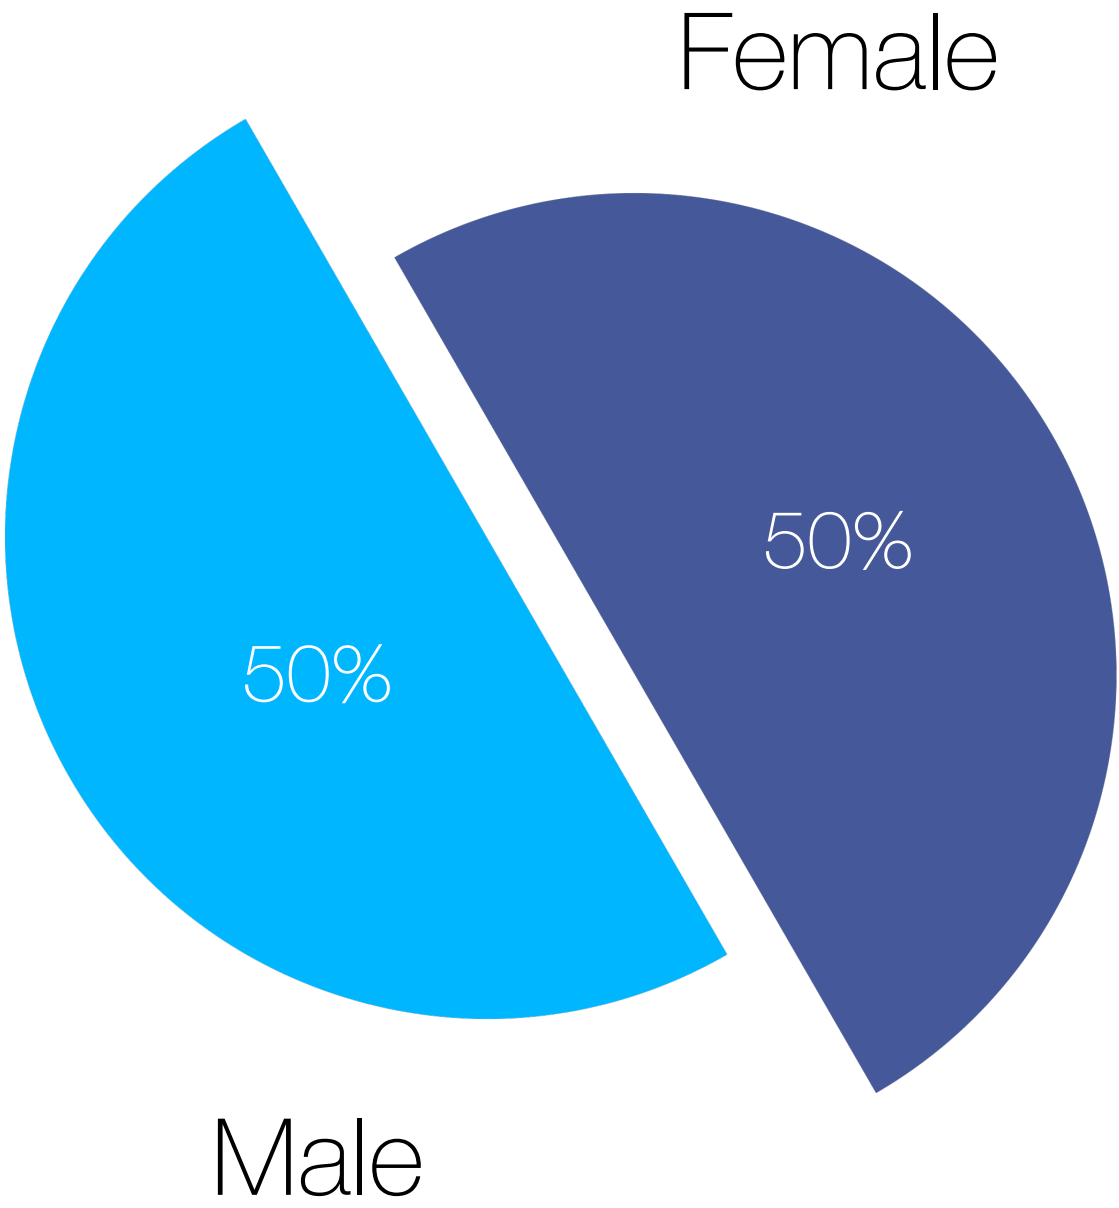

iScanner does not just grab a separate photo but uses a video stream, matching several frames, and chooses the best frame possible, thereby increasing the sharpness and quality of the scanned object.

Perspective Transformation

iScanner automatically applies perspective transformation from a 3d viewpoint to a scanned version for such standard document formats as A4 or ID and produces a perfectly rectangular image.

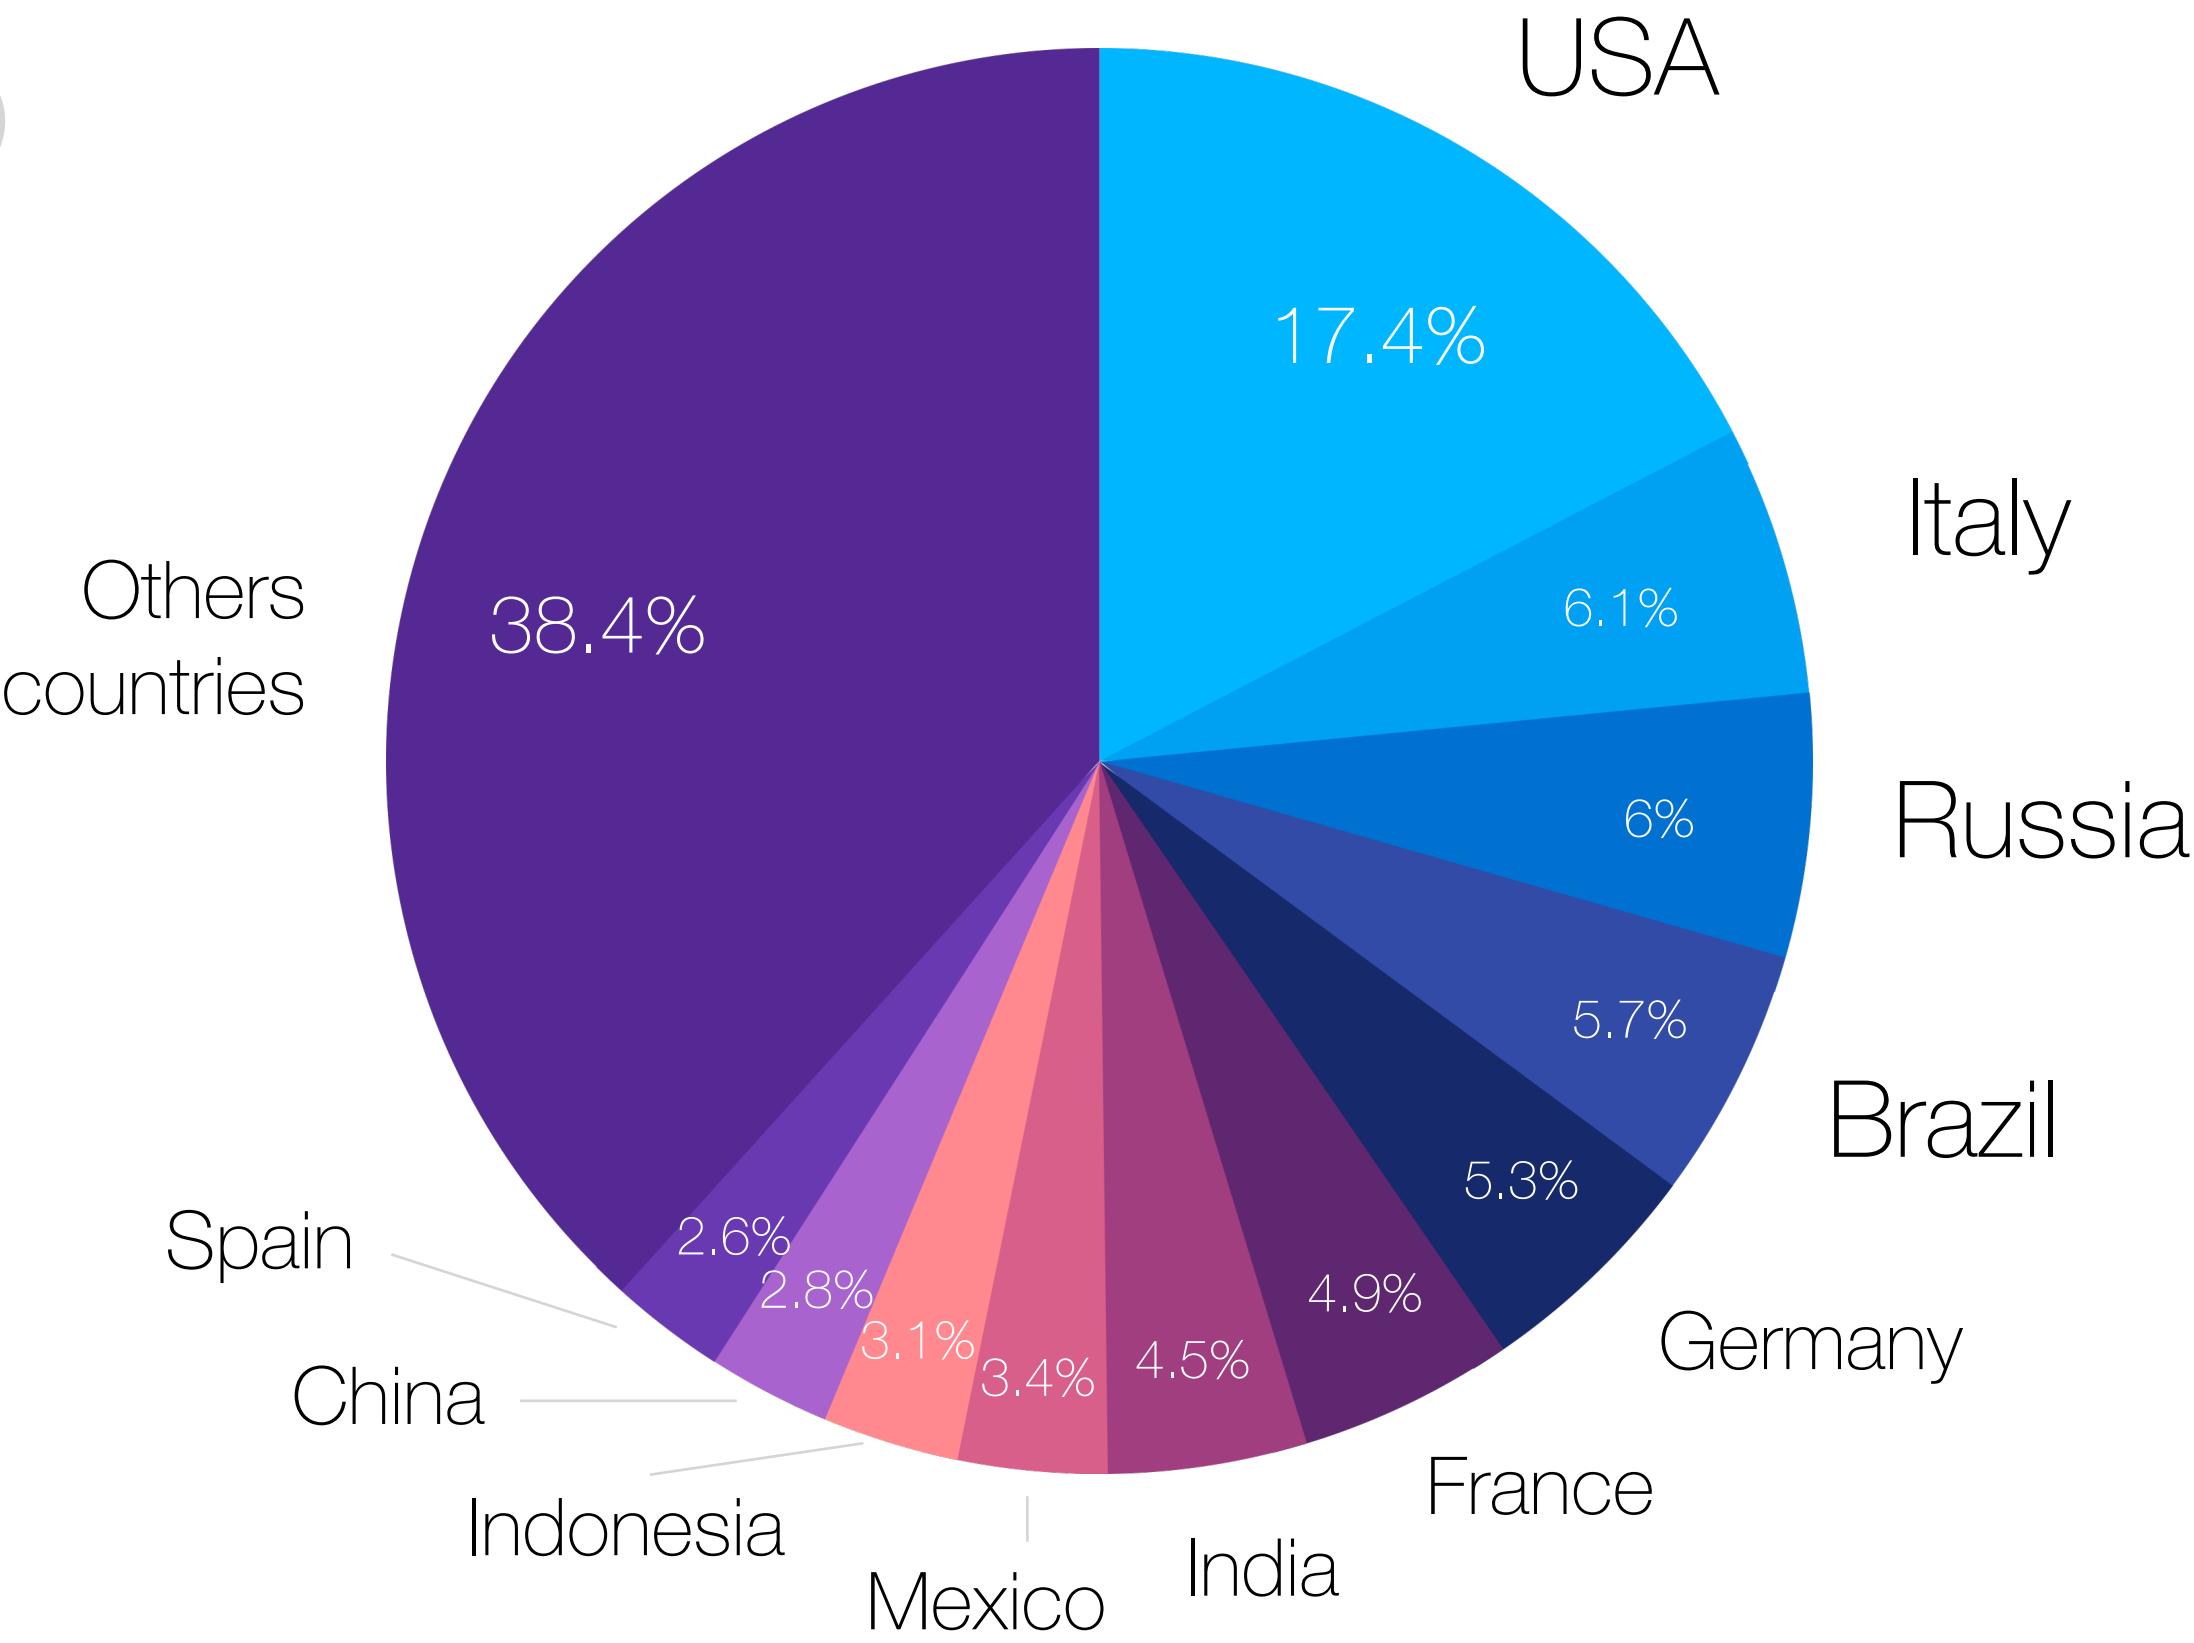

Gender

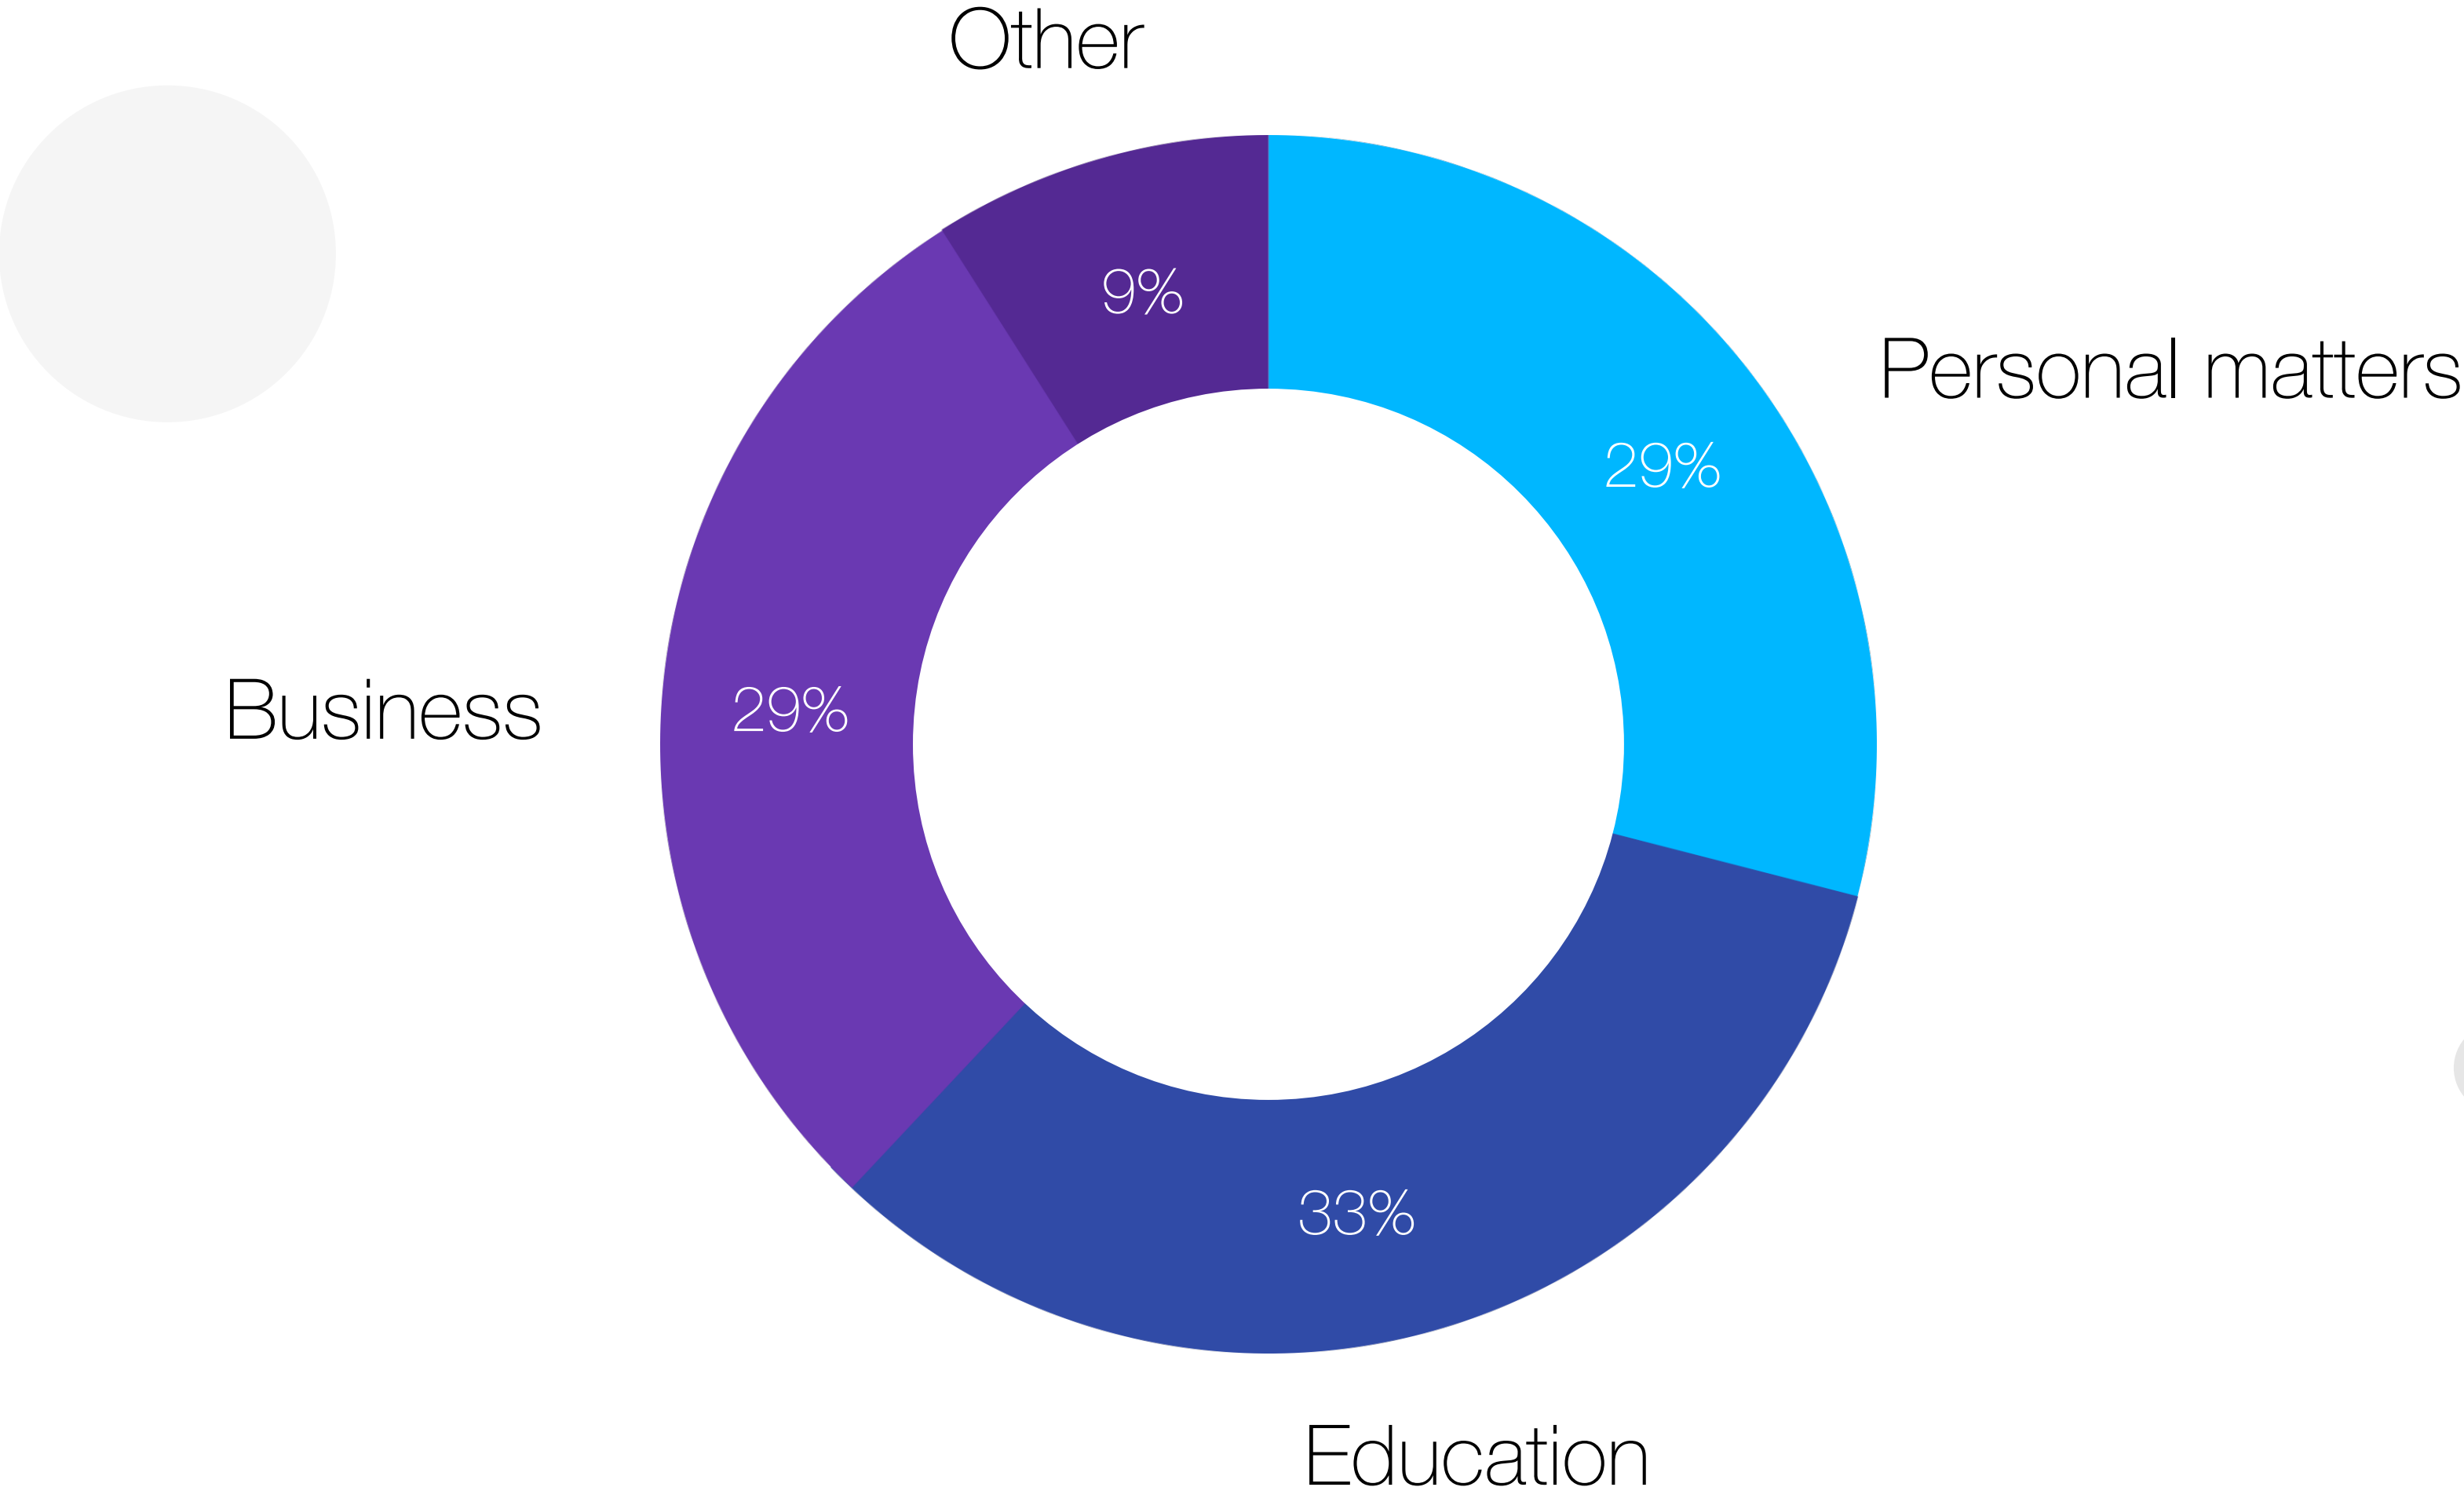

Average Age

Go ECO

The iScanner app is one of the thousand steps on the way to paper usage reduction. A paper-free workplace is more environmentally friendly than the one where paper is used.

Education assistance

In the face of the COVID pandemic, iScanner encourages educational institutions to simplify the remote studying process with digital doc flow.
